Academics

The academic program at Poudre High School is based on three core principles: Relevancy, Rigor and Relationships. Our [curriculum](#) is designed to be relevant in today's rapidly changing world, while providing a rigorous challenge for all students regardless of their post-secondary educational or career goals. We also strive to build strong, cooperative relationships between staff, students and parents, to help ensure positive and productive educational experiences for all our students.

Please explore our academic departments to meet the staff and access course offerings and descriptions. Contact the department chair person or your child's counselor with questions.
